## INTERCITY TELECOMMUNICATIONS SERVICES

### 4. SERVICE AND RATE DESCRIPTION

#### 4.1 Message Telecommunications Service (MTS)

(T)

##### .1 SPRINT Service\*

(T)

Unless otherwise noted herein, Message Telecommunications Services (except SPRINT Service) are available only to a maximum of two residential phone lines, per location.

SPRINT Service is provided as the intrastate add-on service to business and residential interstate SPRINT Service and, accordingly, the SPRINT Service monthly recurring charge is located in Sprint's interstate Residential Schedule located at [www.sprint.com/ratesandconditions](http://www.sprint.com/ratesandconditions).

(M)

(M)

(C)

(C)

SPRINT Service is an intercity service which is available for use by subscribers twenty-four (24) hours a day. The subscriber will use one or more of the three following dialing patterns to gain access to the Sprint fiber optic network:

- .1 In Feature Group D (FGD) exchanges, subscriber's telephone line(s) presubscribed to Sprint are programmed by the local exchange company (LEC) to automatically route "1+" calls to the Carrier's network.
- .2 Customers who have selected Sprint as their "secondary" interexchange long distance carrier dial "1010XXX+" to access the Carrier's network. This dialing procedure would also be used by Sprint Casual Caller customers (LEC billed).
- .3 In some LATAs, in areas where equal access conversion has not yet occurred, some SPRINT Service subscribers dial an access number and authorization code to gain access to the Carrier's network.

Subscribers may originate SPRINT Service from the originating locations referenced in Section 2 and may terminate calls in all locations within the Commonwealth of Kentucky. In the event Sprint determines that provision of SPRINT Dial-Up Service via a seven digit access number and authorization code imposes a significant risk of fraudulent use of its service, Sprint, at its discretion, may choose not to process new orders for Dial-Up Service and/or may, after written notice, cancel existing customers' authorization codes. In such cases, Sprint will continue to offer customers its "800" access FÖNCARD Service. Sprint DIAL "1" Service or the "1010XXX" access number will also be offered where equal access (FGD) is available. Subscribers who use SPRINT Dial-Up Service in conjunction with automatic dialing equipment may be exempted from this requirement when Sprint determines that the likelihood of fraudulent use of the service using such equipment is not significant.

\* Effective October 1, 1995, SPRINT Service will no longer be offered to new business customers.

Charges for SPRINT Service are based on the distance and duration of the call, monthly usage and the rate period when the call is placed. If FGD Access and/or Sprint Universal "800" Access is used, the distance will be measured from the rate center of the calling number as represented by the ANI to the rate center of the called number. If FGB Access (SPRINT Dial-Up via "950" number) is used, the distance will be measured from the rate center of the "tandem location" or network site to which the FGB circuit is connected. Usage rates for SPRINT Service are set forth in Section 5.1. Rate periods for business customers are set forth in Section 3.14.2.1 and rate periods for residential customers are set forth in Section 3.14.2.2.

Directory Assistance, Operator Services, and Travel Service (FÖNCARD) are available to SPRINT Service subscribers.

\* Effective October 1, 1995, SPRINT Service will no longer be offered to new Business customers.

Dial 1 WATS Advantage<sup>sm</sup> calls are originated in equal access areas via Feature Group D (FGD) connections and are terminated via normal shared use facilities. Charges for Sprint Advanced WATS Plus are based on duration of the call, rate period when the call is originated, and total monthly usage within each service group for each rate period. Where Sprint participates in a state wide service arrangement, Sprint Advanced WATS Plus is also available on a complementary basis with Local Exchange Carriers. Under a complementary WATS arrangement, usage rates, the Sprint Advanced WATS Plus monthly recurring subscription fee and additional product feature charges (if any additional features are ordered by the customer) are the only items which are directly billed to the subscriber by Sprint. Local Exchange Carrier non-recurring WAL access installation charges and associated monthly recurring WAL access line charges are billed directly to subscribers by the Local Exchange Carrier rather than through Sprint.

Sprint Business Simple Rate plan is an add-on service to Sprint's interstate Sprint Business Simple Rate service.

Sprint Business Simple Rate plan is available to small business customers. Customers must: 1) subscribe to a monthly minimum usage level of \$30.00 or \$50.00, 2) select Sprint as their primary interexchange carrier and 3) agree to receive their long distance invoice from Sprint.

Customers whose total monthly long distance usage charges do not meet the monthly minimum usage level will be assessed the difference between their total long distance usage charges and their subscribed monthly minimum usage level.
